*"The feeling when a neighbour slows down." — that's the kind of before/after moment I build content around, and exactly the reaction your construction and home-improvement clients want from every post.*

I make people stop scrolling at a transformation. Below isn't a portfolio of ideas — it's real before/after photography, a real published social ad, a real short-form video reel, and a real website, all built and shipped by me for an outdoor-transformation brand. I plan content, shoot and edit it in Canva, design the graphics, and build the web presence that holds it together — independently, on deadline, with no hand-holding. That's the exact mix a remote, multi-client social role needs.

## PROOF, NOT PROMISES

### Before

Bare entrance, real client site

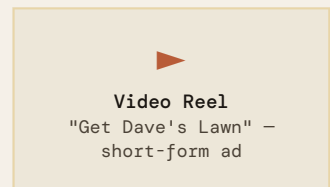

### After

Finished turf transformation

### Published Ad

Before/after campaign post, live

### Video Reel

"Get Dave's Lawn" — short-form ad

## R1.5M→R18M

Property value growth I helped drive through rebrand & marketing

## 6 yrs

Leading a brand rebuild, events & promotion solo

## 2014

NLP Practitioner, NLP World UK — reading an audience

## 5+

Live brand & web builds shipped end-to-end

## BACKGROUND

### Freelance Digital Designer & Web Builder

Self-employed — ongoing

Social graphics, reels, presentations and full brand websites for small businesses, churches and community organisations — Canva to code.

### General Manager — Buffalo Hotel, Hectorspruit

6 years

Personally ran the rebrand, events (Kissing the Buffalo Bar nights, Sunday buffets, Annual Buffalo Festival, MTB racing), marketing and graphic design that grew the property from R1.5m to R18m.

### Founder — Let Me Get It & InsightForge

Personal projects — ongoing / in development

A community referral platform and an AI-powered business discovery tool — both built solo, both about understanding what makes people engage.

## WHAT I BRING

Canva (graphics & mobile video)

Short-form / reel editing

Before/after campaign content

Brand & logo design

Web design & development

Content planning

NLP Practitioner — audience insight

Independent remote delivery

*Whatever your construction and home-improvement clients need to see on their feed — I'll plan it, shoot it, design it, and ship it.*
